

ABOUT ME

My name is Vivienne Bailey, a certified reflexologist (since 2001). I'm trained in the Original Ingham Method through the International Institute of Reflexology (IIR) in St. Petersburg, Florida specializing in foot, hand and facial reflexology.

Reflexology, in and of itself, is a complete therapy because it addresses the physical body. When mental, emotional and spiritual issues impact our physical bodies, we can become imbalanced.

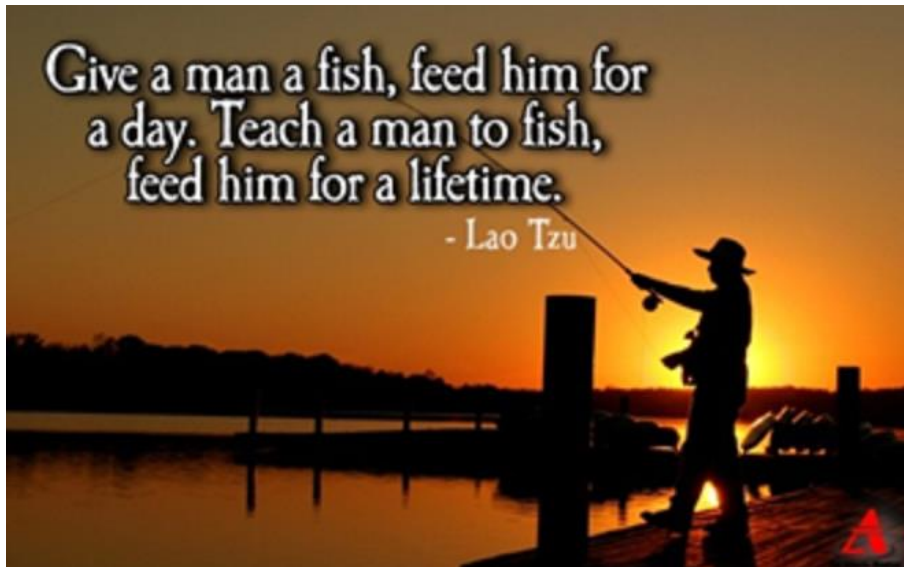

My skills as a Level 2 Reiki and Arcing Light practitioner enhance the reflexology by incorporating these gentle therapeutic energy arts into sessions as needed.

I have more than 20 years of experience in aromatherapy using the Young Living, the industry's gold standard of essential oils since 1993. In my practice, I use these medical-grade essential oils to assist the body's innate desire to effect positive changes and to balance the client's emotional, spiritual, mental and/or physical body.

I have attended 4 separate comprehensive 5-day intensive seminars called C.A.R.E. (The Center for Aromatherapy Research and Education), two days of which cover the chemistry of essential oils. I am proficient in the Raindrop Technique and the Vita Flex Method as taught in these classes.

Since many people suffering with afflictions such as fibromyalgia are unable to be touched without considerable pain, I am also trained in sound massage using the Tibetan Sound Bowls.

I offer Ear Candling (Coning) services for interested clients, having over 20 years of experience in this modality.

Services also available:

- Ancon Chi Machine
- AromaDome
- BioMat
- Euro Body Shaper
- Ionic Foot Bath
- Reflex Roller *
- Niagra Massager *
