

AROMADOME

If you love essential oils, then the AromaDome will blissfully transport you to the next level!

The AromaDome is a unique and wonderful way to relax and re-balance your body. While enclosed inside a small tent, you will enjoy a mini-vacation as you are enveloped (**luxuriating**) in a fragrant steam of pure Young Living essential oils. You may select which Young Living Essential Oil to use in the AromaDome, or you might prefer to use an essential oil selected from an emotional release reading to enhance your reflexology session. The AromaDome can be used as a 15-minute adjunct after a lovely hour of reflexology or you may choose to incorporate the AromaDome during the hour of reflexology. You can choose between a regular reflexology treatment and a foot Vita Flex technique.

The AromaDome® tenting system offers you a chance to experience an intensive inhalation of essential oils in a session lasting 10 to 30 minutes. The tent or dome is placed over the upper body and then your choice of essential oils is diffused as you relax and breathe deeply with intent.
